4D BABY IMAGES – A FAMILY BUSINESS

4D is a family business in every sense of the word – family owned and family friendly - which means that every expectant mother is special.

It usually takes around 45 minutes to an hour to complete every scan but unlike some of our larger competitors we give

you as much time as you need in pleasant attractive consulting rooms to relax and enjoy the experience.

Members of your immediate family are equally welcome to witness the moment as our highly trained sonographers capture that first image of your new baby.

IS IT SAFE?

We practice the **A.L.A.R.A** principle which stands for as low as reasonably achievable. It means there is no known risk to mother or baby. We also follow the strict **BMUS** (British Medical Ultrasound Society) guidelines.

And because we operate at such a professional level we are also able to check, as far as is possible, whether your baby is progressing in the right way to give you total peace of mind.

HOW MUCH DOES IT COST?

4D Baby Images provide a wide range of scanning options so there is one to suit every pocket. We try to keep our prices as competitive as possible and offer everything from a dating or gender scan (please note this is 95% accurate) up to a detailed package which covers every type of option.

We can advise you as to the best option to meet your particular needs. And when you choose your scan we will provide in addition, a free DVD recording, free cd-rom, free colour photos and free development and growth scan subject to the chosen option.

APPOINTMENTS TO SUIT YOU

4D Baby Images is located at Brentwood in Essex, just off Junction 28 of the M25 and provide an ongoing service for expectant mothers across, Essex, Kent, Hertfordshire and London.

We work at evenings and weekends so you can be sure that we will be ready when you are.
